

## Technical Questionnaire

### rape seed

CPVO/TQ-036/2 16/11/2011

*Mandatory fields or sections are marked with an asterisk (\*)*

---

**01 . Botanical taxon: Name of the genus, species or sub-species to which the variety belongs:**

*Brassica napus* L. emend. Metzg.

Other (please specify)

---

**02 . Application code:**

For office use only

---

**03 . Breeder's reference:**

Breeder Ref.

---

**04 . Information on the breeding scheme and propagation of the variety \***

**04 . 01 . Type of material \***

**04 . 01.01 . Line**

*(this question could be confidential)*

male fertile line

Please specify the use "as component" or "as commercial variety"

male sterile line

**04 . 01.02 . Hybrid**

*(this question could be confidential)*

male sterile hybrid

male fertile hybrid

self incompatible hybrid

**04 . 01.03 . Other type of material**

*(this question could be confidential)*

Please specify

**04 . 02 . Formula \***

If applicable, for each component in separate sheets, the information according to the following chapter 5 to 7 to be added.

**04 . 02.01 . Single hybrid**

*(this question could be confidential)*

Denomination or breeder's reference of female parental line of single hybrid

Denomination or breeder's reference of male parental line of single hybrid

**04 . 02.02 . Three-Way hybrid**

*(this question could be confidential)*

Denomination or breeder's reference of single hybrid used

Denomination or breeder's reference of female parental line of single hybrid

Denomination or breeder's reference of male parental line of single hybrid

Denomination or breeder's reference of female parent of the three-way hybrid

Denomination or breeder's reference of male parental line of the three-way hybrid

**04 . 02.03 . In case of use of the male sterility system, indicate the name of the maintainer line of the female parental line:**

*(this question could be confidential)*

Maintainer line of the female parental line

**04 . 02.04 . In case of use of self-incompatibility system, indicate if applicable the name of the self-incompatible lines**

*(this question could be confidential)*

self-incompatible lines

**04 . 03 . Other information on genetic origin and breeding method**

*(this question could be confidential)*

Please specify

**05 . Characteristics of the variety to be indicated \***

(the number in brackets refers to the corresponding characteristic in the CPVO Technical Protocol; please mark the state of expression which best corresponds).

**05 . 01 . Seed: erucic acid (1) \***

1 - absent	Cadoma ; Express
9 - present	Rabelais ; Zeruca

**05 . 02 . Leaf: lobes (8) \***

1 - absent	Calida; Akela
9 - present	Dorothy; Express

**05 . 03 . Time of flowering (11) \***

Quote mean date of flowering of variety as well as of two well-known comparable varieties \*

**05 . 04 . Plant: total length including side branches (16) \***

Quote length of variety as well as of two well-known comparable varieties \*

**06 . Similar varieties and differences from these varieties**

Please note that information on similar varieties may help to identify comparable varieties and can avoid an additional period of testing.

**06 . 01 . Are there any similar variety(ies) known? \***

Yes

No

**06 . 02 . Similar varieties and differences from these varieties: \***

Denomination of similar variety	Characteristic in which the similar variety is different	State of expression of similar variety	State of expression of candidate variety

**07 . Additional information which may help to distinguish the variety \*****07 . 01 . Resistance to pests and diseases \***

Yes, specify

No

**07 . 02 . In addition to the information provided in sections 5 and 6, are there any additional characteristics which may help to distinguish the variety? \***

Yes, specify

No

**07 . 03 . Are there any special conditions for growing the variety or conducting the examination? \***

**07 . 03.01 . Group \***

Spring oilseed rape

Winter oilseed rape

Spring forage rape

Winter forage rape

**07 . 03.02 . Content \***

Low glucosinolate content

High glucosinolate content

**07 . 03.03 . Other conditions \***

Yes, specify

No

**07 . 04 . Other information \***

Yes, specify

No

---

**08 . GMO-information \*****08 . 01 . GMO-information required \***

The variety represents a Genetically Modified Organism within the meaning of Article 2(2) of Council Directive EC/2001/18 of 12/03/2001.

Yes

If yes, please attach in point 08.02 a copy of the written attestation of the responsible authorities stating that a technical examination of the variety under Articles 55 and 56 of the Basic Regulation does not pose risks to the environment according to the norms of the above-mentioned Directive.

No

**08 . 02 . In case of GMO, joint attestation of the responsible authorities stating that a technical examination of the variety under Articles 55 and 56 of the Basic Regulation does not pose risks to the environment according to the norms of the above-mentioned Directive.**

---

**09 . Information on plant material to be examined**

The expression of a characteristic or several characteristics of a variety may be affected by factors, such as pests and disease, chemical treatment (e.g. growth retardants or pesticides), effects of tissue culture, different rootstocks, scions taken from different growth phases of a tree, etc. Consequently the plant material to be examined should not have undergone any treatment which would affect the expression of the characteristics of the variety, unless the competent authorities allow or request such treatment. If the plant material has undergone such treatment, full details of the treatment must be given. In this respect, please indicate below, to the best of your knowledge, if the plant material to be examined has been subjected to:

**09 . 01 . Micro-organisms (e.g. virus, bacteria, phytoplasma) \***

Yes, specify

No

**09 . 02 . Chemical treatment (e.g. growth retardant or pesticide) \***

Yes, specify

No

**09 . 03 . Tissue culture \***

Yes, specify

No

**09 . 04 . Other factors \***

Yes, specify

No

---

**10 . Possible place of the technical examination**

In case the CPVO needs to arrange a technical examination for this candidate variety, there might be more than one examination office entrusted by the CPVO suitable to grow your variety. In this case, the Office will decide on the place of the technical examination but you might wish to express here a preference in respect of an examination office. The available entrusted examination offices for that species can be found in the S3 Gazette under:<http://cpvo.europa.eu/en/applications-and-examinations/technical-examinations/entrusted-examination-offices>

You will also find in the S2 Gazette further information about submission of plant material and deadlines for numerous major species:<http://cpvo.europa.eu/en/applications-and-examinations/technical-examinations/submission-of-plant-material-s2-publication>

**10 . 01 . Country where the examination could take place**

Country
