**BG** Специално издание на Официалния Бюлетин на Службата на общността за сортовете растения (ЦПВО) с информация за крайните срокове за заявки и изискванията за предоставяне на растителен материал (Страница 25)

*Специалното издание на Официалния бюлетин на Службата на Общността за сортовете растения (S2) има за цел да предостави на заявителите консолидирана версия на крайните срокове за заявки и изискванията за предоставяне на материал от сорта с оглед техническата му проверка.*

*От октомври 2010 г. S2 ще се публикува в електронен вид на уебсайта на Службата шест пъти в годината. Всяко специално издание ще съдържа консолидирана версия; измененията в предходното издание ще се отбелязват с осветен текст.*

*На уебсайта на Службата е предоставен инструмент за търсене, чрез който могат да се проследят измененията.*

*За да са възможни проверки в историята на записите, всяко специално издание на Официалния бюлетин на ЦПВО ще бъде запазено в .pdf формат и ще остане на разположение на уеб потребителите за справка.*

*S2 вестникът посочва крайните дати за доставка на материал за изпитване от видове за които заявки се подават редовно, както и изискванията на които трябва да отговаря материала. Вие ще трябва да се свържете с ЦПВО за повече информация, ако видите за който искате да подадете заявка не е в списъка. Моля да имате предвид, че е задължение на заявителя да се запознае с всички изисквания на процедурата по заявяване, включително с подробностите за доставка на материал за техническо изпитване. Когато попълва заявка, заявителят трябва да може да достави материал от сорта, който заявява до крайната дата и в изискваното от ЦПВО количество и качество. Ако това не стане заявителят рискува заявката да бъде отхвърлена. Ако имате въпроси относно други сортове растения, обърнете се към ЦПВО на: [cpvo@cpvo.europa.eu](mailto:cpvo@cpvo.europa.eu).*

#### Важни забележки:

- От заявителя се очаква да предостави растителен материал, едва след като получи писмено искане от ЦПВО. Неспазването на горното указание може да изложи на риск цялата процедура.
- Заявителите се приканват настоятелно да не оставят изпращането на заявките или растителния материал за последния момент.
- Заявките могат да се подават по всяко време. ЦПВО предвижда да започне техническата проверка през периода на отглеждане, който следва крайния срок, при условие че преди изтичане на крайния срок е получена валидна заявка.
- Крайният срок определя началото на изпитването. За заявления с дата на подаване преди или в деня на крайния срок изпитването започва в следващия вегетативен период. Ако в деня на крайния срок Службата е затворена и не приема изпратени по пощата документи, то първият следващ ден, в който Службата е отворена и приема изпратени по пощата документи, ще се счита за краен срок. Крайният срок за заявления подадени по пощата се отнася и за заявления подадени по електронен път. За заявления с дата на подаване след крайния срок изпитването започва на следващата година.
- В случай че растителният материал бъде предоставен след определената дата за подаване, заявката може да бъде отхвърлена съгласно член 61 от Регламент (ЕО) н° 2100/94 на Съвета от 27 юли 1994 година.
- Ако крайният срок изтича на ден, на който ЦПВО не работи и не може да получава документи, срокът се удължава до първия следващ работен ден, на който ЦПВО може да получава документи и на който се доставя обикновена поща, съгласно член 71 от Правилат а за прилагане на Регламент 874/2009 на Европейската комисия от 17/09/2009 година.
- Ако крайният срок изтича на ден, в който службата не работи и не може да получава растителен материал, срокът се удължава до първия следващ работен ден, на който службата за проверка може да получава растителен материал, съгласно член 71 от Правилат а за прилагане на Регламент 874/2009 на Европейската комисия от 17/09/2009 година.
- Всички фитосанитарни изисквания се съобщават на заявителя заедно с искането за предоставяне на растителен материал на съответната служба за проверка.
- Предоставеният растителен материал трябва да бъде видимо здрав, да изглежда свеж и да не е засегнат от никакви значителни вредители или болести.

**ES** Número especial del Boletín Oficial de la OCVV en el que se informa de las fechas límite para las solicitudes y de los requisitos para la presentación de materiales vegetales (Página 25)

La serie S2 del Boletín presenta a los solicitantes una versión consolidada de los plazos de presentación de las solicitudes y de los requisitos de presentación de los materiales vegetales para su examen técnico.

A partir de octubre de 2010, se publicará en formato digital en el sitio web de la Oficina seis veces al año. Cada número del S2 se publicará en una versión consolidada; todas las modificaciones respecto de la versión del S2 publicada anteriormente aparecerán destacadas en el texto.

Con una herramienta de búsqueda se pueden encontrar tales modificaciones en el sitio web de la Oficina.

Para permitir la consulta de los archivos por los usuarios de Internet, cada boletín S2 se guardará como documento .pdf.

La publicación S2 cubre las fechas límites así como los detalles relativos a la sumisión de material vegetal de especies para las cuales se reciben solicitudes regularmente. Si la especie que busca no se encuentra en dicha lista, se le pide contactar la Oficina para recibir la información correspondiente. Se les recuerda tomen nota que es la responsabilidad del solicitante de familiarizarse suficientemente con todos los aspectos del procedimiento de una solicitud, incluyendo los detalles para la sumisión de material vegetal para la conducta del examen técnico. En el momento de realizar una solicitud, el solicitante debe estar en condiciones de enviar material vegetal de su variedad según la cantidad y calidad prescrita por la Oficina, antes de la fecha límite. De ser el contrario, el solicitante corre el riesgo que la solicitud será rechazada. En caso de preguntas sobre otras especies, diríjase a la OCVV a través de [cpvo@cpvo.europa.eu](mailto:cpvo@cpvo.europa.eu).

— Se aconseja a los solicitantes que no dejen para el último minuto el envío de solicitudes o material vegetal.

— Las solicitudes pueden presentarse en cualquier momento a la OCVV. La Oficina prevé iniciar el examen técnico en el periodo de cultivo siguiente a la fecha límite, siempre y cuando la solicitud haya sido recibida por la OCVV antes de la fecha límite.

— La fecha límite de clausura determina el comienzo del examen técnico. Para solicitudes con una fecha de solicitud anterior o el mismo día que la fecha límite de clausura, el examen técnico comenzará en el próximo periodo de cultivo. Si la fecha límite de clausura cae en un día en el cual la Oficina no está abierta para recibir documentos por correo, entonces el primer día en el cual la Oficina está abierta para recibir documentos por correo será considerada como la fecha límite de clausura. La fecha límite para solicitudes enviadas por correo también se aplica a solicitudes enviadas electrónicamente. Para solicitudes con una fecha de solicitud posterior a la fecha límite clausura, el examen técnico comenzará el año siguiente.

— Si se presenta material vegetal pasada la fecha de presentación establecida, la solicitud podría denegarse con arreglo a lo dispuesto en el artículo 61 del Reglamento (CE) no 2100/94 del Consejo de 27 de julio de 1994.

— Con arreglo a lo dispuesto en el Artículo 71 de las Disposiciones de desarrollo, Reglamento de la Comisión Europea n° 874/2009 de 17/09/2009. Si un plazo finaliza en un día en que la OCVV no está abierta para recibir documentos, este plazo se ampliará hasta el primer día siguiente en que la OCVV está abierta para la recepción de documentos y en que se distribuya el correo ordinario.

— Si el plazo expira un día en el que la oficina de examen no está abierta para la recepción de material vegetal, se ampliará el plazo hasta el día siguiente en que esté abierta la oficina de examen para la recepción de material vegetal, con arreglo a lo dispuesto en el artículo 71 del Reglamento de la Comisión Europea n° 874/2009 de 17/09/2009.

— Se le comunicará al solicitante cualquier requisito fitosanitario junto con las instrucciones para el envío de material vegetal a la oficina de examen pertinente.

— El material vegetal suministrado deberá tener apariencia sano, vigoroso y que no esté afectado por ninguna plaga o enfermedad importante.

## **CS** Zvláštní vydání úředního věstníku CPVO obsahující informace o datech uzávěrek pro žádosti a požadavky na zaslání rostlinného materiálu (Strana 25)

Cílem věstníku S2 je poskytovat žadatelům konsolidovanou verzi dat uzávěrek žádostí a informovat je o požadavcích na zaslání rostlinného materiálu za účelem jeho podrobení technickým zkouškám.

Počínaje říjnem 2010 bude tento věstník šestkrát ročně v digitální podobě zveřejňován na internetových stránkách úřadu. Každé vydání věstníku S2 bude zveřejněno v konsolidované verzi, přičemž všechny změny původní uveřejněné verze věstníku S2 budou zvýrazněny.

Na internetových stránkách úřadu je k dispozici vyhledávací nástroj k identifikaci těchto změn.

Všechna vydání věstníku S2 budou uložena ve formátu .pdf, aby bylo možné konzultovat předchozí vydání, a budou návštěvníkům internetových stránek i nadále k dispozici.

Věstník S2 obsahuje termíny dodání rostlinného materiálu a další požadavky na rostlinné druhy, u kterých jsou žádosti podávány pravidelně. V případě, že dotčený druh není v seznamu uveden, požádejte prosím o informace úřad CPVO. Mějte prosím na paměti, že žadatel je povinen seznámit se dostatečně se všemi aspekty postupu podání žádosti včetně podrobností o dodání rostlinného materiálu za účelem provedení technického zkoušení. Při podání žádosti žadatel musí být schopen dodat rostlinný materiál v termínu, kvalitě i množství požadovaném úřadem CPVO. V opačném případě se vystavuje nebezpečí, že jeho žádost bude zamítnuta. Pokud máte dotazy týkající se jiných druhů, obraťte se laskavě na úřad CPVO prostřednictvím e-mailové adresy [cpvo@cpvo.europa.eu](mailto:cpvo@cpvo.europa.eu).

### Důležité upozornění:

— Žadatel zaslal rostlinného materiál až poté, co od CPVO obdrží písemnou výzvu. Nedodržení výše uvedeného pokynu může narušit průběh celého řízení.

— Žadatelům se důrazně doporučuje, aby nenechávali zaslání žádosti nebo rostlinného materiálu až na poslední chvíli.

— Žádosti mohou být podány kdykoliv. CPVO plánuje začít technické zkoušky v růstovém období, které bude následovat po datu uzávěrky, pokud byla platná žádost obdržena do data uzávěrky.

— Datum uzávěrky pro podání žádostí určuje zahájení technického zkoušení. Pro žádosti s datem podání nejpozději v den uzávěrky bude technické zkoušení zahájeno v nadcházejícím vegetačním období. V případě, že datum uzávěrky připadá na den, kdy Úřad nepřijímá dokumenty zaslání poštou, pak je za datum uzávěrky považován nejbližší příští den, kdy Úřad přijímá dokumenty doručené poštou. Datum uzávěrky pro podání žádostí podaných prostřednictvím poštovní služby se vztahuje i na žádosti podané v elektronické podobě. Pro žádosti s datem podání po uzávěrce bude technické zkoušení zahájeno v následujícím roce.

— Pokud bude rostlinný materiál obdržen po stanoveném datu uzávěrky, může být žádost zamítnuta v souladu s článkem 61 nařízení Rady (ES) č. 2100/94 ze dne 27. července 1994.

— Pokud lhůta uplyne dnem, kdy CPVO není otevřen pro přijímání dokumentů, prodlužuje se lhůta až do prvního následujícího dne, kdy je CPVO otevřen pro příjem dokumentů a kdy se doručuje obyčejná pošta, v souladu s článkem 71 prováděcích pravidel k nařízení Komise (ES) č. 874/2009 ze dne 17/09/2009.

— Pokud lhůta uplyne dnem, kdy zkušební úřad není otevřen pro přijímání rostlinného materiálu, prodlužuje se až do prvního následujícího dne, kdy je zkušební úřad otevřen pro příjem rostlinných materiálů, v souladu s článkem 71 prováděcích pravidel k nařízení Komise (ES) č. 874/2009 ze dne 17/09/2009.

— Jakékoliv fytoosanitární požadavky budou žadateli sděleny současně se žádostí o zaslání rostlinného materiálu příslušnému zkušebnímu úřadu.

— Dodaný rostlinný materiál by měl být viditelně zdravý, neměl by být ve špatném stavu nebo vykazovat zásadní napadení škůdci nebo nemocemi.

**DA** Særudgave af EF-Sortsmyndighedens Officielle Tidende indeholdende tidsfrister for ansøgninger og betingelser for indgivelse af plantemateriale (Side 25)

Formålet med særudgaven af Sortsmyndighedens Officielle Tidende (S2) er, i en konsolideret version, at give ansøgerne oplysninger om de tidsfrister og betingelser for indgivelse, der finder anvendelse, når der foretages teknisk afprøvning af plantemateriale.

Fra oktober 2010 offentliggøres oplysningerne digitalt på Sortsmyndighedens websted seks gange årligt. Alle S2-udgaver offentliggøres i en konsolideret version, og eventuelle ændringer i forhold til den tidligere offentliggjorte S2-version vil blive fremhævet.

På Sortsmyndighedens websted findes der et søgeværktøj, som kan identificere disse ændringer.

For at gøre det muligt at søge i arkiverne, gemmes alle S2-publikationer som pdf-dokument og forbliver tilgængelige for webbrugerne.

S2 indeholder frister for indsendelse af plantemateriale og krav til plantematerialet for arter, der anmeldes jævnlige. Kontakt venligst Sortsmyndigheden for information, der vedrører arter, som ikke er anført. Husk, at det er anmelderens ansvar at være bekendt med kravene til anmeldelsen, hvilket dækker over proceduren, fremsendelse af plantemateriale og den tekniske afprøvning. Ved anmeldelse skal man kunne fremsende plantematerialet i den mængde og kvalitet samt til den anførte tidsfrist, som Sortsmyndigheden anfører. Alternativt kan anmeldelsen afvises. I tilfælde af spørgsmål vedrørende andre sorter kan der rettes henvendelse til Sortsmyndigheden på adressen [cpvo@cpvo.europa.eu](mailto:cpvo@cpvo.europa.eu).

- 7: Påbegyndelse af indgivelsesperiode
- 8: Afslutning af indgivelsesperiode
- 9: Frø/plantemængde
- 10: Frø/plantekvalitet

**Vigtigt:**

— Ansøgeren skal kun indgive materialet efter skriftlig anmodning fra Sortsmyndigheden. Tilsidesættelse af ovenstående anvisninger kan bringe hele proceduren i fare.

— Det tilrådes kraftigt, at ansøgeren ikke venter til sidste øjeblik med at sende ansøgningen eller plantematerialet.

— Ansøgninger kan indgives på et hvilket som helst tidspunkt i løbet af året. Sortsmyndigheden har til hensigt at påbegynde den tekniske afprøvning i dyrkningsperioden efter ansøgningsfristens udløb, hvis der er modtaget en gyldig ansøgning inden fristens udløb.

— Anmeldelsesfristen bestemmer starten på den tekniske afprøvning. For anmeldelser med en anmeldelsesdato tidligere eller lig med anmeldelsesfristen vil den tekniske afprøvning starte i den kommende afprøvningsperiode. Falder anmeldelsesfristen på en dato, hvor Kontoret (CPVO) ikke har åbent og dermed ikke kan modtage breve fremsendt med posten, vil den første åbningsdag, hvor Kontoret kan modtage breve med posten, blive anmeldelsesfristen. Anmeldelsesfristen for anmeldelser fremsendt med posten gælder også for anmeldelser modtaget elektronisk. For anmeldelser med en anmeldelsesdato efter anmeldelsesfristen vil den tekniske afprøvning starte i den efterfølgende afprøvningsperiode.

— Hvis plantematerialet indsendes efter den fastsatte indsendelsesfrist, kan ansøgningen afvises i henhold til artikel 61 i Rådets forordning (EF) nr. 2100/94 af 27. juli 1994.

— Udløber en frist på en dag, hvor Sortsmyndigheden har lukket for modtagelse af dokumenter, forlænges fristen til den nærmeste hverdag dag, hvor Sortsmyndigheden har åbent for modtagelse af dokumenter, og hvor almindelige postforsendelser udbringes, i henhold til artikel 71 i Kommissionens forordning nr. 874/2009 af 17. september 2009 om gennemførelsesbestemmelser.

— Udløber en frist på en dag, hvor prøvningsmyndigheden har lukket for modtagelse af plantematerialer, forlænges fristen til den nærmeste hverdag dag, hvor prøvningsmyndigheden har åbent for modtagelse af plantematerialer, i henhold til artikel 71 i Kommissionens forordning nr. 874/2009 af 17. september 2009 om gennemførelsesbestemmelser.

— Ethvert fyto-sanitært krav vil blive meddelt ansøgeren sammen med anmodningen om indgivelse af plantemateriale til den pågældende prøvningsmyndighed.

— Plantematerialet skal være sundt og frisk uden spor af skadedyr og sygdomme.

## **DE** Sonderausgabe des Amtsblattes des Gemeinschaftlichen Sortenamtes (CPVO) über Antragsfristen und über Bestimmungen zur Vorlage von Pflanzenmaterial (Seite 25)

Zweck des S2-Amtsblattes ist es, die Antragsteller in einer konsolidierten Fassung über Schlussdaten für die Anträge auf Sortenschutz sowie über die Anforderungen für die Einreichung von Pflanzenmaterial im Hinblick auf ihre technische Prüfung zu informieren.

Ab Oktober 2010 wird das S2-Amtsblatt sechsmal pro Jahr digital auf der Website des Amtes veröffentlicht. Jede S2-Ausgabe wird als konsolidierte Fassung erscheinen; Änderungen im Vergleich zur vorher veröffentlichten Fassung des S2 werden hervorgehoben dargestellt.

Eine Suchfunktion zum Auffinden dieser Änderungen ist auf der Website des Amtes verfügbar.

Um frühere Einträge prüfen zu können, wird jede S2-Veröffentlichung als .pdf-Dokument gespeichert und den Webnutzern zur Einsichtnahme zur Verfügung stehen.

Die S2 informiert über Fristen und Anforderungen zur Vorlage von Pflanzenmaterial für Arten, für die das Amt regelmäßig Anträge erhält. Bitte wenden Sie sich für Informationen zu nicht aufgeführten Arten an das Amt. Bitte beachten Sie, dass der Antragsteller dafür verantwortlich ist, sich hinreichend mit allen Schritten des Antragsverfahrens - einschließlich der Details zur Materialvorlage für die technische Prüfung - vertraut zu machen. Bei Antragstellung muss der Antragsteller in der Lage sein, Pflanzenmaterial in der ausgewiesenen Menge und Qualität und im vorgeschriebenen Zeitraum vorzulegen. Nichtbefolgung dieser Anforderung kann zur Zurückweisung des Antrages führen. Bei Fragen zu anderen Arten, senden Sie bitte eine E-Mail an [cpvo@cpvo.europa.eu](mailto:cpvo@cpvo.europa.eu).

### Wichtige Hinweise:

— Die Vorlage des Pflanzenmaterials durch den Antragsteller soll nur nach schriftlicher Aufforderung durch das CPVO erfolgen. Die Nichterfüllung dieser Vorgabe kann das gesamte Antragsverfahren gefährden.

— Den Antragstellern wird empfohlen, die Anträge bzw. das Pflanzenmaterial rechtzeitig im Vorfeld zu senden.

— Anträge können jederzeit eingereicht werden. Das CPVO sieht vor, die technische Prüfung in der dem Antragsdatum folgenden Wachstumsperiode zu beginnen, falls ein gültiger Antrag bis zum Antragsschluss des jeweiligen Jahres eingereicht wurde.

— Der Beginn der technischen Prüfung wird durch das Datum des Antragsschlusses bestimmt. Für Anträge mit einem Antragsdatum vor oder bis einschließlich dem Datum des Antragsschlusses beginnt die technische Prüfung in der folgenden Wachstumsperiode. Wenn das Datum des Antragsschlusses auf einen Tag fällt an dem das Amt zur Entgegennahme von Schriftstücken nicht geöffnet ist, so gilt der nächstfolgende Tag, an dem das Amt zur Entgegennahme von Schriftstücken geöffnet ist als Datum des Antragsschlusses. Das Datum des Antragsschlusses für Anträge, die auf dem Postweg eingereicht werden gilt auch für Anträge, die elektronisch eingereicht werden. ## **ET** Ühenduse Sordiameti ametliku teataja eriväljaanne taotluste esitamise tähtaegade ja taimse materjali esitamise nõuete kohta (Lehekülg 25)

Teataja eriväljaande (S2 Gazette) eesmärk on anda taotlejatele kokkuvõtlikku teavet taotluste esitamise tähtaegade ja taimse materjali registreerimiskatseteks esitamise nõuete kohta.

Alates oktoobrist 2010 ilmub eriväljaanne ameti veebilehel digitaalselt kuus korda aastas. Iga S2 väljaanne avaldatakse konsolideeritud versioonina, kõik eelmise versiooni muudatused märgistatakse.

Otsinguvahendiga saab muudatusi leida ameti veebilehel.

Iga S2 väljaanne salvestatakse pdf-vormingus dokumendina, et saaks vaadata varasemaid salvestisi, ja see jääb veebikasutajaile otsinguis kättesaadavaks.

Eriväljaandes S2 on toodud Ühenduse Sordiametile taotletud sortide taimse materjali registreerimiskatsesse saatmise tähtajad ja nõuded saadetava taimse materjali kohta. Vajaduse korral palume Teid informeerida Ühenduse Sordiametit neist liikidest, mis puuduvad meie liikide loetelus. Tuletame Teile meelde, et taotleja peab olema teadlik taotlemise protseduurist, samuti taimse materjali registreerimiskatsesse saatmise üksikasjadest. Kui taotleja esitab taotluse, peab ta olema võimeline saatma oma sordi taimset materjali nõutud kvaliteediga ja nõutud koguses õigeks tähtajaks Ühenduse Sordiametile. Vastasel juhul võib Ühenduse Sordiamet taotluse tagasi lükata. Küsimused teiste liikide kohta saatke palun Ühenduse Sordiametile aadressil: cpvo@cpvo.europa.eu.

### Tähelepanu:

— Taotlejad saavad taimse materjali alles pärast Ühenduse Sordiametilt kirjaliku nõude saamist. Selle juhise eiramine võib kahjustada kogu menetlust.

— Soovitame tungivalt taotlejatele mitte jätta taotluste või taimse materjali saatmist viimasele hetkele.

— Taotlusi võib esitada igal ajal. Juhul kui kehtiv taotlus on laekunud tähtajaks, alustab Ühenduse Sordiamet registreerimiskatsetega tähtajale järgneval kasvuperioodil.

— Taotluste esitamise tähtaeg määrab registreerimiskatse alguse. Kui taotlus saabub mitte hiljem kui kehtestatud tähtajal, algab registreerimiskatse eelseisval kasvuperioodil. Kui taotluste esitamise tähtaeg langeb päevale, mil Sordiamet on suletud ja sel päeval ei saa postiteenuseid vastu võtta, siis saab taotluse vastuvõtmise tähtajaks olema Sordiameti lahtioleku esimene kuupäev, mil postiteenused on võimalik vastu võtta. Taotluste esitamise tähtaeg kehtib nii posti teel kui ka elektroonilisel teel saabunud taotlustele. Kui taotlused saabuavad kehtestatud tähtajast hiljem, algab registreerimiskatse järgmisel aastal.

— Kui taimne materjal saadetakse pärast esitamise tähtaega, võidakse taotlus tagasi lükata, vastavalt nõukogu 27. Juuli 1994. aasta määruse (EÜ) nr 2100/94 artiklile 61.

— Kui tähtaeg lõpeb päeval, mil Ühenduse Sordiamet ei ole dokumentide vastuvõtuks avatud, pikendatakse tähtaega sellele järgneva esimese päevani, mil Ühenduse Sordiamet on dokumentide vastuvõtuks avatud ja mil kantakse laiali harilikku posti, vastavalt Euroopa Komisjoni 17/09/2009 aasta määruse nr 874/2009 (rakenduseeskirjad) artiklile 71.

— Kui tähtaeg lõpeb päeval, mil kontrolliasutus ei ole taimse materjali vastuvõtuks avatud, pikendatakse tähtaega sellele järgneva esimese päevani, mil kontrolliasutus on taimse materjali vastuvõtuks avatud, vastavalt Euroopa Komisjoni 17/09/2009 aasta määruse nr 874/2009 (rakenduseeskirjad) artiklile 71.

— Kõik fütosanitaarnõuded edastatakse taotlejale koos asjaomasele kontrolliasutusele taimse materjali esitamise nõudega.

— Esitata taimne materjal peab olema nähtavalt terve, elujõuline ning olulistest kahjuritest ja haigustest puutumatu.

Vous êtes prié de vous renseigner directement auprès de l'Office si l'espèce qui vous intéresse n'est pas répertoriée. N'oubliez pas qu'il est de la responsabilité du demandeur de se familiariser suffisamment avec tous les aspects de la procédure de demande, y compris les détails sur la soumission du matériel végétal pour la conduite de l'examen technique. Lors du dépôt d'une demande, le demandeur doit être en mesure de soumettre le matériel végétal de sa variété dans les délais, la qualité et la quantité prescrits par l'Office. — *Toute condition phytosanitaire sera communiquée au demandeur avec la demande de présentation de matériel végétal à l'office d'examen concerné.*

— *Le matériel végétal fourni doit être visiblement sain, vigoureux et exempt d'organismes nuisibles ou de maladies.*

Napominjemo da je odgovornost podnositelja prijave da se dobro obavijesti o svim aspektima postupka prijave, uključujući detalje dostave biljnog materijala radi provođenja tehničkog ispitivanja. Prilikom ispunjavanja prijave podnositelj mora biti u mogućnosti da do isteka roka dostavi biljni materijal za svoju sortu u količini i kvaliteti koje propisuje Ured. U suprotnom izlaže se riziku da će zahtjev biti odbijen. U slučaju pitanja o drugim vrstama, molimo vas da kontaktirate Ured Zajednice za zaštitu biljnih sorti (CPVO) na [cpvo@cpvo.europa.eu](mailto:cpvo@cpvo.europa.eu).*

## **HU** A CPVO Hivatalos Közlönyének speciális kiadványa-tájékoztató a kérelmek beadásának határidejéről és a növényi minták benyújtásához kapcsolódó követelményekről (Oldal 25)

Az S2 Gazette célja az, hogy a kérelmezők rendelkezésére bocsássa a kérelmek beadására vonatkozó egységesített határidőket, valamint a növény minta beküldésére vonatkozó előírásokat szakmai szempontok szerint.

2010 októberétől a kiadvány digitálisan kerül közzétételre a Hivatal weboldalán évente hat alkalommal. Minden S2 kiadvány egységesített változatban kerül közzétételre, az S2 kiadvány bármely, előzőleg közzétett változatához képest megjelenő módosítás kiemelve fog megjelenni.

Egy kereső segítségével ezek a módosítások azonosíthatók a Hivatal weboldalán.

Annak érdekében, hogy a nyilvántartások előzményeit ellenőrizni lehessen, minden S2 kiadványt el fognak menteni pdf. dokumentumként, amely betekintés céljából a webes felhasználók rendelkezésére fog állni.

Az S2 tartalmazza a szaporítóanyag beküldésének határidejét és a fajokra vonatkozó beküldési követelményrendszert a rendszerben szereplő bejelentések kitöltéséhez, ha a növény faj nem szerepel a listán közvetlenül a Hivatalhoz kell fordulni információért. Emlékeztetjük a bejelentőt, hogy saját felelőssége teljes körűen tájékozódni a bejelentés valamennyi részletéről, beleértve a technikai vizsgálat lefolytatásához szükséges szaporítóanyag beküldésére vonatkozó szabályozás részleteit. A bejelentési s dokumentum kitöltése során a bejelentőnek tekintetbe kell vennie a fajta szaporítóanyagának beküldési határidejét és a Hivatal által meghatározott mennyiségi és minőségi követelményrendszerét. Ellenkező esetben a bejelentő kockáztatja a bejelentésének visszautasítását. Amennyiben egyéb fajtákkal kapcsolatban kérdése merülne fel, kérjük, keresse meg a CPVO-t a : cpvo@cpvo.europa.eu címen.

- 8: A szaporítóanyag beküldés végső időpontja
- 9: Mag/Növény mennyiség
- 10: Mag/Növény minőség

### Fontos megjegyzés:

— A kérelmet benyújtónak csak akkor kell elküldenie a szaporítóanyag mintát, miután a CPVO-tól írásos nyilatkozatot átvette. Az említett utasítás be nem tartása az egész eljárást veszélyezteti.

— A kérelmezőknek nem tanácsos a kérelmek vagy a növényi szaporítóanyag minták benyújtásnak elküldését az utolsó pillanatra halasztaniuk.

— Kérelmet bármikor be lehet nyújtani. A CPVO a technikai vizsgálat megkezdését a benyújtási határidőt követő termesztési időszakra irányozza elő, ha az érvényes kérelem a benyújtási határidő lejártá előtt beérkezett.

— A bejelentési határidő meghatározza a technikai vizsgálatok kezdetét. A bejelentési határidő előtti bejelentések esetében a technikai vizsgálatok a következő vizsgálati ciklusban megkezdődnek. Amennyiben a bejelentési határidő olyan napra esik, amikor a Hivatal zárva van és így nem fogad postai küldeményeket, akkor a bejelentési határidő a következő olyan napra módosul, amikor a Hivatal nyitva van és fogad postai küldeményeket. A postai küldeményekre vonatkozó bejelentési határidő az elektronikusan küldött bejelentésekre is vonatkozik. A bejelentési határidő utáni bejelentések esetében a technikai vizsgálatok a következő utáni vizsgálati ciklusban kezdődnek meg.

— A beküldési határidő lejártát követően beküldött növényi szaporítóanyag minták esetében a kérelmet az 1994. július 27-i, 2100/94/EK tanácsi rendelet 61. cikke alapján vissza lehet utasítani.

— Amennyiben egy határidő olyan napon jár le, amikor a CPVO nem fogad dokumentumokat, a határidőt -a 17/09/2009, 874/2009/EK bizottsági rendelet végrehajtási szabályainak 71. cikke szerint az első olyan napig hosszabbítják meg, amelyen a CPVO fogad dokumentumokat, és amelyen a szokványos postai küldemények érkeznek.

— Amennyiben egy határidő olyan napon jár le, amikor a CPVO nem vesz át szaporítóanyag mintákat, a határidőt -a 17/09/2009, 874/2009/EK bizottsági rendelet végrehajtási szabályainak 71. cikke szerint - az első olyan napig hosszabbítják meg, amelyen a hivatal átvesz növényi mintákat.

— A kérelmet benyújtó tájékoztatást kap a növény-egészségügyi követelményekről, amikor megkapja a növényi minta illetékes vizsgáló hivatalhoz való benyújtásáról szóló nyilatkozatot.

— A benyújtott növénymintának láthatóan egészségesnek, életerőnek kell lennie, illetve nem szenvedhet jelentős kártevő vagy kórokozó fertőzéstől.

**PL** Specjalne wydanie urzędowej gazety CPVO informacja o ostatecznym terminie składania wniosków oraz o wymogach dotyczących przesyłania materiału roślinnego (Strona 25)

Celem publikacji Urzędowej Gazety S2 jest przekazanie wnioskodawcom skonsolidowanych informacji o ostatecznych terminach składania wniosków oraz o wymogach dotyczących składania materiału roślinnego w związku z jego badaniem technicznym.

Od października 2010 r. Urzędowa Gazeta S2 będzie publikowana na stronie internetowej Urzędu sześć razy w roku. Każde wydanie gazety będzie publikowane w wersji skonsolidowanej; wszelkie zmiany względem wcześniej opublikowanych wersji zostaną zaznaczone.

Na stronie internetowej Urzędu jest dostępne narzędzie wyszukiwania w celu zidentyfikowania tych zmian.

Aby umożliwić sprawdzenie wcześniejszych dokumentów, każda publikacja Urzędowej Gazety S2 zostanie zachowana jako dokument .pdf i będzie dostępna do konsultacji dla użytkowników internetowych.

Publikacja S2 zawiera terminy dostarczania materiału roślinnego i inne wymagania dla gatunków, dla których regularnie składane są wnioski. Prosimy o kontakt z Urzędem w celu otrzymania informacji na temat gatunków nie uwzględnionych w Publikacji S2. Proszę pamiętać, że wnioskodawca ma obowiązek zapoznać się wystarczająco z wszystkimi aspektami procedury, w tym ze szczegółami dotyczącymi dostarczania materiału roślinnego do przeprowadzenia badania technicznego. Składając wniosek, wnioskodawca musi być w stanie przedłożyć materiał roślinny swojej odmiany w terminie, o jakości i w ilości wyznaczonych przez Urząd. W przeciwnym razie podejmuje ryzyko odrzucenia wniosku. W przypadku pytań dotyczących innych gatunków prosimy o kontakt z CPVO pod adresem [cpvo@cpvo.europa.eu](mailto:cpvo@cpvo.europa.eu).

**Ważne uwagi:**

— Wnioskodawca winien wysłać materiał roślinny jedynie na pisemne żądanie WUOR. Niezastosowanie się do powyższych zaleceń może negatywnie wpłynąć na przebieg postępowania.

— Wnioskodawcy nie zaleca się wysyłanie wniosków lub materiału roślinnego w ostatnim momencie.

— Zgłoszenia może składać w każdym czasie. CPVO zamierza rozpocząć badanie techniczne w okresie wzrostu przypadającym po dacie zamknięcia, pod warunkiem, że ważny wniosek został złożony przed upływem ostatecznego terminu.

— Data zamknięcia determinuje rozpoczęcie badania technicznego. Dla podań z datą wniosku nie późniejszą od daty zamknięcia, badanie techniczne rozpocznie się w nadchodzącym okresie wegetacyjnym. Jeśli data zamknięcia przypada na dzień, w którym Urząd nie jest otwarty aby otrzymać dokumenty drogą pocztową, wtedy pierwszy dzień, w którym Urząd jest otwarty na odbiór dokumentów dostarczonych przez pocztę zostaje uznany za datę zamknięcia. Datę zamknięcia dla wniosków doręczanych nadaniem pocztowym stosuje się również do wniosków przesyłanych drogą elektroniczną. Dla podań z datą wniosku po dacie zamknięcia, badanie techniczne rozpocznie się w następnym roku.

— Jeżeli materiał roślinny zostanie złożony po ustalonej dacie składania materiału, wniosek może zostać odrzucony na mocy art. 61 rozporządzenia Rady (WE) nr 2100/94 z dnia 27 lipca 1994 r.

— Jeżeli dany termin upływa w dniu, w którym WUOR nie przyjmuje dokumentów, termin ten zostaje przedłużony do pierwszego kolejnego dnia, w którym WUOR jest otwarty do celów przyjmowania dokumentów oraz w którym dostarczana jest zwyczajna poczta, zgodnie z art. 71 przepisów wykonawczych, rozporządzenie Komisji Europejskiej nr 874/2009 z dnia 17/09/2009.

— Jeżeli dany termin upływa w dniu, w którym urząd badawczy nie przyjmuje materiałów roślinnych, termin ten zostaje przedłużony do pierwszego dnia, w którym urząd badawczy jest otwarty do celów przyjmowania materiału roślinnego, zgodnie z art. 71 przepisów wykonawczych, rozporządzenie Komisji Europejskiej nr 874/2009 z dnia 17/09/2009.

— Wszelkie wymogi fitosanitarne zostaną przekazane wnioskodawcy wraz z wnioskiem o przedstawienie materiału roślinnego odpowiedniemu urzędowi badawczemu.

— Dostarczony materiał roślinny powinien charakteryzować się wyraźnie zdrowym wyglądem i żywotnością, nie powinien też być poważnie zaatakowany przez szkodniki ani dotknięty istotnymi chorobami.

**RO** Ediție specială a Buletinului Oficial al OCSP cuprinzând informații privind termenele de depunere a cererilor și condițiile de depunere a materialului vegetal (Pagina 25)

Scopul Buletinului S2 este de a oferi solicitanților o versiune consolidată a datelor de închidere a depunerii candidaturilor și a cerințelor pentru depunerea materialului vegetal în vederea examinării tehnice.

Începând cu luna octombrie 2010, acesta va fi publicat în format electronic pe situl internet al oficiului, de șase ori pe an. Fiecare număr al S2 va fi publicat în versiune consolidată; toate modificările față de versiunea publicată anterior a Buletinului S2 vor apărea evidențiate.

Este, de asemenea, disponibil un instrument de căutare pentru identificarea acestor modificări pe situl internet al oficiului.

Pentru a permite verificarea înregistrărilor anterioare, fiecare publicație S2 va fi salvată ca document în format .pdf și va putea fi consultată de utilizatorii sitului.

Buletinul oficial S2 conține informații privind termenele de depunere a cererilor și condițiile de depunere a materialului vegetal pentru speciile pentru care sînt cereri în mod sistematic. Sînteți rugați să vă informați direct la oficiile de examinare dacă sînteți interesați de o specie care nu e repertoriată în Buletinul oficial S2. Reamintim că este de responsabilitatea solicitantului să se familiarizeze cu aspectele procedurii, inclusiv să cunoască termenele de depunere a cererilor și condițiile de depunere a materialului vegetal în oficiul de examinare unde se va efectua examenul tehnic. Depunerea materialului vegetal trebuie să respecte termenele de depunere, cantitatea și calitatea prescrisă de OCSP. Altfel solicitantul riscă respingerea cererii. Pentru întrebări legate de alte specii, vă puteți adresa la OCSP la [cpvo@cpvo.europa.eu](mailto:cpvo@cpvo.europa.eu).

- 8: Încheierea perioadei de depunere

- 10: Calitatea semințelor/plantelor

**Observații importante:**

— Solicitantul nu trebuie să depună materialul vegetal decît după primirea unei invitații în scris în acest sens de la OCSP. Nerespectarea acestei instrucțiuni poate compromite întreaga procedură.

— Se recomandă în mod expres solicitanților să nu amâne expedierea cererilor sau a materialului vegetal până în ultima clipă.

— Cererile pot fi depuse în orice moment. OCSP preconizează să înceapă examinarea tehnică în perioada de cultură care urmează după termenul de depunere, dacă a fost primită o cerere valabilă până la termenul de depunere.

— Data de închidere determină începutul examinării tehnice. Pentru dosarele cu o data de aplicare înainte de data de închidere, examinarea tehnică va începe în perioada următoare de creștere. Dacă data de închidere cade într-o zi în care Oficiul este închis și nu poate primi documente trimise prin poștă, atunci prima zi în care Oficiul e deschis va fi considerată ca dată de închidere. Data de închidere este aceeași pentru dosarele trimise prin poștă și pentru dosarele trimise electronic. Pentru dosarele care au o dată de aplicare după data de închidere, examinarea tehnică va începe în perioada de creștere, anul următor.

— În cazul în care materialul vegetal este depus după termenul de depunere fixat, cererea poate fi refuzată în conformitate cu articolul 61 din Regulamentul (CE) nr. 2100/94 al Consiliului din 27 iulie 1994.

— În cazul în care termenul de depunere expiră într-o zi în care nu se primesc documente la OCSP, termenul se prelungește pînă în prima zi imediat următoare în care se primesc documente la OCSP și în care se distribuie corespondența obișnuită, în conformitate cu articolul 71 din Normele de aplicare a Regulamentului (CE) nr. 874/2009 al Comisiei Europene din 17/09/2009.

— În cazul în care un termen de depunere expiră într-o zi în care nu se primește material vegetal la oficiul de examinare, perioada de depunere se prelungește pînă în prima zi imediat următoare în care oficiul de examinare primește material vegetal, în conformitate cu articolul 71 din Normele de aplicare a Regulamentului (CE) nr. 874/2009 al Comisiei Europene din 17/09/2009.

— Toate cerințele fitosanitare se vor comunica solicitantului împreună cu invitația de depunere a materialului vegetal la oficiul de examinare în cauză.

— Materialul vegetal depus trebuie să fie în mod vizibil sănătos, viguros și neafectat de dăunători sau de boli semnificative.

## **SK** Zvláštne vydanie Úradného vestníka CPVO oznamujúce dátumy uzávierky prihlášok a požiadavky na predloženie rastlinného materiálu (Strana 25)

Účelom vestníka S2 je poskytovať žiadateľom konsolidovanú verziu dátumov uzávierok prijímania žiadostí a požiadaviek na predloženie rastlinného materiálu v súvislosti s odborným preskúmaním.

Vestník bude od októbra 2010 šesťkrát ročne uverejňovaný v digitálnej podobe na webovej stránke Úradu Spoločenstva pre odrody rastlín. Každé vydanie vestníka S2 bude vydané v konsolidovanej verzii, pričom všetky zmeny oproti pôvodne uverejnenej verzii vestníka S2 budú vyznačené.

Na zistenie týchto zmien je na webovej stránke Úradu Spoločenstva pre odrody rastlín k dispozícii nástroj na vyhľadávanie.

Každé vydanie vestníka S2 bude uložené ako dokument vo formáte .pdf, aby sa zabezpečila možnosť prezerania predošlých vydaní, a bude naďalej k dispozícii na konzultáciu pre návštevníkov webovej stránky.

Vestník S2 informuje o lehotách na predloženie rastlinného materiálu a o požiadavkách na dodávku druhov, u ktorých sú žiadosti pravidelne podávané. V prípade, že určitý druh nie je uvedený v zozname, žiadame Vás obrátiť sa na úrad CPVO o poskytnutie informácií. Majte prosím na pamäti, že je povinnosťou žiadateľa oboznámiť sa dostatočne so všetkými aspektmi procesu podávania žiadostí, vrátane informácií o predložení rastlinného materiálu pre odborné preskúmanie. Pri podaní žiadosti musí byť žiadateľ schopný predložiť rastlinný materiál jeho odrody v požadovanom termíne, v kvalite a množstve stanovenom úradom CPVO. V opačnom prípade sa vystavuje riziku, že jeho žiadosť bude zamietnutá. Pokiaľ máte otázky týkajúce sa iných druhov, obráťte sa na úrad CPVO prostredníctvom emailovej adresy [cpvo@cpvo.europa.eu](mailto:cpvo@cpvo.europa.eu).

### Dôležité upozornenia:

— Prihlasovateľ dodá množiteľský materiál len vtedy, keď ho o to písomnou formou požiada CPVO. Nesplnenie tohto pokynu môže ohroziť celkový priebeh konania.

— Prihlasovateľom odporúčame, aby si zasielanie prihlášok alebo rastlinného materiálu nenechávali na poslednú chvíľu.

— Prihlášky možno predložiť kedykoľvek. CPVO plánuje začať technické preskúmanie v rastovom období po uzávierke, ak bola do uzávierky prijatá platná prihláška.

— Záverečný termín uzávierky určuje začiatok technického skúšania. Pre žiadosti s dátumom podania najneskôr v deň uzávierky začne technické skúšanie v nadchádzajúcom vegetačnom období. V prípade, že záverečný termín pripadá na deň, keď úrad nie je otvorený a neprijíma dokumenty zaslané poštou, potom prvý deň, kedy je úrad otvorený pre prijímanie dokumentov doručených poštou bude považovaný za záverečný. Uzávierka žiadostí doručených poštovými službami sa vzťahuje aj na žiadosti podané v elektronickej podobe. Pre žiadosti s dátumom podania po dátume uzávierky, technické skúšanie začne v nasledujúcom roku.

— Ak sa rastlinný materiál predloží po stanovenom dátume na predkladanie, prihláška môže byť zamietnutá v súlade s článkom 61 nariadenia Rady (ES) č. 2100/94 z 27. júla 1994.

— Ak stanovená lehota uplynie v deň, kedy CPVO dokumenty neprijíma, stanovená lehota sa predĺži do najbližšieho ďalšieho dňa, kedy CPVO prijíma dokumenty a kedy sa prijíma bežná pošta, v súlade s článkom 71 vykonávacích predpisov nariadenia Komisie č. 874/2009 zo 17. septembra 2009.

— Ak stanovená lehota uplynie v deň, kedy skúšobný úrad neprijíma rastlinný materiál, stanovená lehota sa predĺži do najbližšieho ďalšieho dňa, kedy skúšobný úrad prijíma rastlinný materiál, v súlade s článkom 71 vykonávacích predpisov nariadenia Komisie č. 874/2009 zo 17. septembra 2009.

— Všetky fytoosanitárne požiadavky sa oznámia prihlasovateľovi so žiadosťou o predloženie rastlinného materiálu príslušnému skúšobnému úradu.

— Dodaný rastlinný materiál by mal byť viditeľne zdravý, čerstvý a nemal by byť napadnutý žiadnymi chorobami alebo škodcami.

## **SL** Posebna izdaja Uradnega glasila Urada skupnosti za rastlinske sorte o rokih za oddajo prijave in o zahtevah za predložitev rastlinskega materiala (Stran 25)

Namen Glasila S2 je prijavitelje seznaniti s konsolidirano različico rokov za oddajo prijav in zahtevami v zvezi s predložitvijo rastlinskega materiala za preskušanje.

Od oktobra 2010 bo glasilo šestkrat letno objavljeno v digitalni obliki na spletni strani urada. Vsaka številka tega glasila bo objavljena v konsolidirani obliki, kar pomeni, da bodo vse spremembe podatkov iz predhodno objavljenih različic glasila S2 vidno označene.

Na spletni strani urada je na voljo orodje za iskanje omenjenih sprememb.

Da bi omogočili vpogled v zgodovino zapisov, bodo vsa glasila S2 shranjena v formatu .pdf in bodo še nadalje ostala na voljo uporabnikom spletne strani urada.

Glasilo S2 vključuje roke za predložitev rastlinskega materiala in zahteve v zvezi s predložitvijo materiala vrst, za katere so prijave pravilno vložene. Vljudno vas prosimo, da se obrnete na Urad, če zadevna vrsta ni navedena. Opozoriti vas moramo, da se je prijavitelj dolžan v zadostni meri seznaniti z vsemi vidiki postopka prijave, vključno s podrobnostmi o predložitvi rastlinskega materiala za izvedbo preizkušanja. Ob vložitvi prijave mora biti prijavitelj sposoben zagotoviti in predložiti rastlinski material svoje sorte do roka in v količini ter kakovosti, kot jih predpiše Urad. V nasprotnem primeru tvega, da se njegova prijava zavrne. Če imate kakršnakoli vprašanja o drugih vrstah, se obrnite na Urad Skupnosti za rastlinske sorte na naslov [cpvo@cpvo.europa.eu](mailto:cpvo@cpvo.europa.eu).

### Pomembno:

— Od prijavitelja se pričakuje, da predloži rastlinski material šele, ko od CPVO prejme pisno zahtevo. Neizpolnjevanje zgoraj navedenega navodila lahko ogrozi celoten postopek.

— Prijaviteljem svetujemo, da s pošiljanjem prijav ali rastlinskega materiala ne čakajo na zadnji trenutek.

— Prijave se lahko vložijo kadar koli. CPVO predvideva začetek preskušanja v obdobju rasti po roku za oddajo prijav, če je bila veljavna prijava prejeta do tega roka.

— Rok za oddajo prijav določa začetek preizkušanja. Za prijave z datumom, ki ni poznejši kot je rok za oddajo prijave, se preizkušanje začne v tej rasti dobi. Če rok za oddajo prijav poteče na dan, ko Urad ni odprt za sprejem dokumentov, ki prispejo po pošti, potem se kot rok za oddajo prijav šteje prvi dan, ko je Urad odprt za sprejem dokumentov poslanih po pošti. Rok za oddajo prijav poslanih po pošti, se uporablja tudi za prijave, poslanih po elektronski pošti. Za prijave z datumom, ki je poznejši kot je rok za oddajo prijave, se preizkušanje začne naslednje leto.

— Če je rastlinski material predložen po roku za predložitev, se lahko prijava zavrne v skladu s členom 61 Uredbe Sveta (ES) št. 2100/94 z dne 27. julija 1994.

— Če rok poteče na dan, ko CPVO ni odprt za sprejem dokumentov, se rok podaljša do prvega dne, ko je CPVO odprt za prejem dokumentov in na katerega se opravlja dostava navadne pošte, kar je v skladu s členom 71 Uredbe Evropske komisije št. 874/2009 z dne 17. September 2009.

— Če rok poteče na dan, ko urad za preskušanje sort ni odprt za sprejem rastlinskega materiala, se rok podaljša do prvega dne, ko je urad za preskušanje sort odprt za prejem rastlinskega materiala, kar je v skladu s členom 71 Uredbe Evropske komisije št. 874/2009 z dne 17. September 2009 o uvedbi izvedbenih pravil.

— V primeru fitosanitarnih zahtev se obvesti prijavitelja in se od njega zahteva, da zadevnemu uradu za preskušanje sort predloži rastlinski material.

— Predloženi rastlinski material mora izkazovati zdravje, vitalnost ter ne sme biti prizadet zaradi škodljivcev ali bolezni.

**FI** Kasvilajikeviraston virallisen lehden erikoisnumero, jossa on tietoa määräajoista hakemuksen jättämiseksi ja vaatimuksista kasvimateriaalin toimittamiselle (Sivu 25)

*Kasvilajikeviraston virallisen lehden S2:n tarkoituksena on tarjota hakijoille konsolidoidun version muodossa tietoa määräajoista hakemusten jättämiseksi ja vaatimuksista kasvimateriaalin toimittamiselle niiden teknisen tutkimuksen yhteydessä.*

*Lokakuusta 2010 alkaen lehti julkaistaan digitaalisena kasvilajikeviraston verkkosivustolla kuusi kertaa vuodessa. Jokainen S2 julkaistaan konsolidoituna versiona ja mahdolliset muutokset suhteessa S2:n edelliseen numeroon on merkitty näkyviin.*

*Muutosten havaitsemiseksi viraston sivustolla on myös käytettävissä hakuväline.*

*Vanhoiden tietojen tarkistamisen helpottamiseksi jokainen S2-julkaisu tallennetaan verkkosivustolle pdf-asiakirjana, johon sivuston käyttäjät voivat tutustua.*

*S2 kattaa toimittamisen määräajat ja toimitettavaa kasvimateriaalia koskevat vaatimukset niiden lajien osalta, joista tehdään säännöllisesti hakemuksia. Muiden lajien osalta pyydämme ottamaan yhteyttä kasvilajikevirastoon tietojen saamiseksi. Hakijalla on velvollisuus perehtyä riittävässä määrin kaikkiin hakemusmenettelyn osiin, tekniseen tutkimukseen tarvittavan kasvimateriaalin toimittamisen yksityiskohdat mukaan luettuna. Hakemusta tehdessään hakijan on kyettävä toimittamaan määräaikaan mennessä lajikkeestaan niin paljon ja sen laatuista kasvimateriaalia kuin mitä kasvilajikevirasto määrää. Muussa tapauksessa on vaara, että hakemus tulee hylätyksi. Muita lajeja koskevien kysymysten osalta pyydämme ottamaan yhteyttä kasvilajikevirastoon cpvo@cpvo.europa.eu.*

— *Hakijaa kehoitetaan lähettämään hakemus tai kasvimateriaali hyvissä ajoin ennen määräaika.*

— *Hakemuksen voi lähettää koska tahansa. CPVO:n tarkoituksena on aloittaa tekninen tutkimus määräpäivää seuraavana kasvukautena, jos virasto on saanut virallisen hakemuksen määräpäivään mennessä.*

— *Hakemuksen määräaika ratkaisee teknisen tutkimuksen aloittamisen. Jos virasto on saanut hakemuksen määräpäivään mennessä, tekninen tutkimus aloitetaan seuraavana kasvukautena. Jos määräaika päättyy päivänä, jona kasvilajikevirasto ei ole avoinna asiakirjojen vastaanottamiseksi, määräaika jatketaan lähimpään päivään, jona kasvilajikevirasto on auki asiakirjojen vastaanottamiseksi ja jona tavanomainen postinjakelu toimii. Postitse toimitettavia hakemuksia koskeva määräaika koskee myös sähköisesti toimitettuja hakemuksia. ## **SV** Specialutgåva av den officiella tidskriften för gemenskapens växtsortsmyndighet innehållande information om tidsfrister för ansökningar och villkor för ingivande av växtmaterial (Sida 25)

Syftet med specialutgåvan (S2) av den officiella tidskriften är att i en konsoliderad version informera de sökande om tidsfrister för ansökningar och krav på inlämning av växtmaterial för den tekniska provningen.

Från och med oktober 2010 kommer specialutgåvan att offentliggöras digitalt sex gånger per år på myndighetens webbplats. Varje specialutgåva kommer att offentliggöras i en konsoliderad version. Varje ändring jämfört med tidigare publicerade versioner av specialutgåvan kommer att vara markerade.

Ett sökverktyg för att identifiera dessa ändringar finns på myndighetens webbplats.

För att tillåta kontroll av tidigare publicerade dokument så kommer alla specialutgåvor sparas som pdf-dokument och dessa kommer att finnas tillgängliga för konsultation för webbanvändare.

S2 omfattar tidsfrister för inlämnande av växtmaterial och inlämnandekrav av arter för vilka ansökningar regelbundet är inskickade. Ni ombeds att kontakta myndigheten för information om den berörda arten inte är noterad. Var vänlig kom ihåg att det är den sökandes ansvar att bekanta sig tillräckligt med alla aspekter av ansökningsförfarandet inklusive detaljerna om inlämning av växtmaterial för genomförandet av den tekniska undersökningen. När en ansökan inlämnas måste den sökande vara i stånd att lämna växtmaterial av sin sort i tid, samt i den kvalitet och kvantitet som myndigheten föreskriver. Annars finns det risk för att hans ansökan avslås. Kontakta CPVO på [cpvo@cpvo.europa.eu](mailto:cpvo@cpvo.europa.eu) om det finns frågor om andra arter.

### Observera:

— Den sökande förväntas lämna in växtmaterialet endast efter det att denne mottagit en skriftlig begäran från växtsortsmyndigheten. Underlåtenhet att rätta sig efter instruktionerna ovan kan äventyra hela förfarandet.

— De sökande uppmanas att inte vänta till sista stund med att lämna ansökningar eller växtmaterial.

— Ansökningar kan lämnas in när som helst. CPVO räknar med att påbörja den tekniska provningen under växtperioden efter sista ansökningsdatum om en giltig ansökan har inkommit senast detta datum.

— Slutdatumet anger början av den tekniska provningen. För ansökningar med ett ansökningsdatum som infaller senast på slutdatumet, så kommer den tekniska provningen att starta i den kommande växtperioden. Om slutdatumet infaller på en dag då myndigheten inte är öppen för att ta emot dokument som skickas via post, så kommer den första dagen då myndigheten är öppen för mottagande av dokument som levereras per post bli slutdatumet. Slutdatumet för ansökningar som skickas via post gäller även ansökningar som skickas elektroniskt. För ansökningar med ett ansökningsdatum senare än slutdatumet så kommer den tekniska provningen att inledas under efterföljande år.

— Om materialet lämnas in efter fastställd tidsfrist för inlämnande kan ansökan avslås enligt artikel 61 i rådets förordning (EG) nr 2100/94 av den 27 juli 1994.

— Om en tidsfrist löper ut på en dag då växtsortsmyndigheten inte är öppen för mottagande av handlingar ska tidsfristen förlängas till första dagen därefter då växtsortsmyndigheten är öppen för mottagande av handlingar och då vanlig post delas ut, i enlighet med artikel 71 i genomförandebestämmelserna, Europeiska kommissionens förordning nr 874/2009 av den 17/09/2009.

— Om en tidsfrist löper ut på en dag då provningsmyndigheten inte är öppen för mottagande av växtmaterial, ska tidsfristen förlängas till första dagen därefter då provningsmyndigheten är öppen för mottagande av växtmaterial, i enlighet med artikel 71 i genomförandebestämmelserna, Europeiska kommissionens förordning nr 874/2009 av den 17/09/2009.

— Eventuella fytosanitära villkor kommer att meddelas den sökande tillsammans med begäran att lämna in växtmaterial till berörd provningsmyndighet.

— Det inlämnade växtmaterialet ska vara synbarligen friskt och inte sakna livskraft eller vara drabbat av några skadedjur eller någon sjukdom.
