A CPVR can be granted only if the variety is novel. The variety will not be novel if it has been sold, or otherwise disposed of, or with the breeder's consent:

The applicant is expected to have taken reasonable precautions to ensure that sales or comparable disposals have not taken place earlier than allowed.

The following types of disposal of material of the variety will not damage novelty:

- Disposals to an official body for statutory purposes, or to others on the basis of a legal relationship, solely for production, reproduction, multiplication, conditioning or storage, provided that the breeder preserves the exclusive right of disposal and that no further disposal is made to others.
- Disposals of material which has been produced from plants grown for experimental purposes or for the purpose of breeding, or discovering and developing, other varieties and which is not used for further reproduction or multiplication, unless reference is made to the variety for purposes of that disposal.
- Disposals due to, or in consequence of, the fact that the breeder has displayed the variety at an official or officially recognized exhibition.

Please be informed that the first disposal information provided in the application form amount to a declaration.
