

## DISCLAIMER

The present version of the national guideline has been accepted by the President of the CPVO for its use in technical examinations carried out on behalf of the CPVO or for the take-over of reports serving as a basis for a CPVO decision.

**Myosotis**  
**Simplified standard protocol: SSP/VRG/3**

Examination office:	Naktuinbouw	
Reference of the protocol:	SSP/VRG/3	
Date of preparation of the protocol:	22/03/2023	
Date of entry into force of the protocol:	15/07/2021	
Botanical taxon:	Myosotis x parviflora (Schur) Domin.	
Common Name (when known):	Forget-me-not	
Way of propagation of the plants to be examined:	Self or cross pollinated seed propagated <input checked="" type="checkbox"/> Vegetatively propagated <input checked="" type="checkbox"/>	
Number of growing cycles:	1 <input checked="" type="checkbox"/> 2 <input type="checkbox"/> Other <input type="checkbox"/> specify <a href="#">Click or tap here to enter text.</a>	
List of grouping characteristics:	Yes <input type="checkbox"/> if yes put as annex No <input checked="" type="checkbox"/>	
Minimum number of plants in trial:	Vegetative: 20	Seed: 40
Minimum number of plants observed by measuring or counting:	Vegetative: 1	Seed: 20
Give description of when observations should take place:	Observation on the flower should take place: at full flowering Observation on the leaf should take place: at full flowering Other observations should take place: at full flowering	

<p>Uniformity:</p> <ul style="list-style-type: none"> <li>- For the assessment of uniformity of vegetatively propagated, self-pollinated seed propagated varieties or F1-hybrids, a population standard of 1 % and an acceptance probability of at least 95% should be applied. In the case of a sample size of 24 plants, 1 off-types are allowed.</li> <li>- For the assessment of uniformity for cross-pollinated varieties, the recommendations for cross-pollinated varieties in the General introduction of UPOV should be applied. The variability within the variety should not exceed the variability of comparable varieties already known.</li> </ul>	
Table of characteristics:	<p>Present <input checked="" type="checkbox"/></p> <p>Not available <input type="checkbox"/></p>
Literature: (when present, please annex to this document)	<p>Present <input checked="" type="checkbox"/></p> <p>Absent <input type="checkbox"/></p>

**Table of characteristics:**

1.	Plant: growth habit	
2.	Plant: height	
3.	Plant: width	
4.	Stem: thickness at base	
5.	Stem: color	
6.	Stem: pubescence	
7.	Leaf blade: length	
8.	Leaf blade: width	
9.	Leaf blade: shape	
10.	Leaf blade: shape of top	
11.	Leaf blade: color of upper side	
12.	Leaf blade: color of lower side	
13.	Leaf blade: incisions of margin	
14.	Inflorescence: length	
15.	Pedice: length	
16.	Pedice: color	
17.	Flower: diameter	
18.	Corolla tube: color at base	
19.	Corolla tube: color at top	
20.	Corolla tube: color of veins	
21.	Corolla lobe: shape	
22.	Corolla lobe: color	RHS Colour Chart (indicate reference number)
23.	Corolla lobe: color of base
