Estonian Plant Variety Protection System and Variety listing

Laima Puur

Agricultural Board/ Councillor of Organic Farming and Seed
Department

04.03.2020

Background

The Estonian system of plant variety rights was established in 1994, when the Plant Variety Rights Act entered into force

Since 24 September 2000 Estonia has been a member of The International Union for the Protection of New Varieties of Plants (UPOV)

Since 1 May 2004 there are two plant variety rights systems in Estonia

DUS examination

DUS tests are carried out in the Viljandi Variety Testing Centre of Agricultural Research Centre:

- *Avena sativa* L. (spring)
- *Galega orientalis* Lam.
- *Hordeum vulgare* L. (spring)
- *Lupinus polyphyllus* Lindl.
- *Phalaris arundinacea* L.
- *Pisum sativum* L.
- *Triticum aestivum* L. (spring)

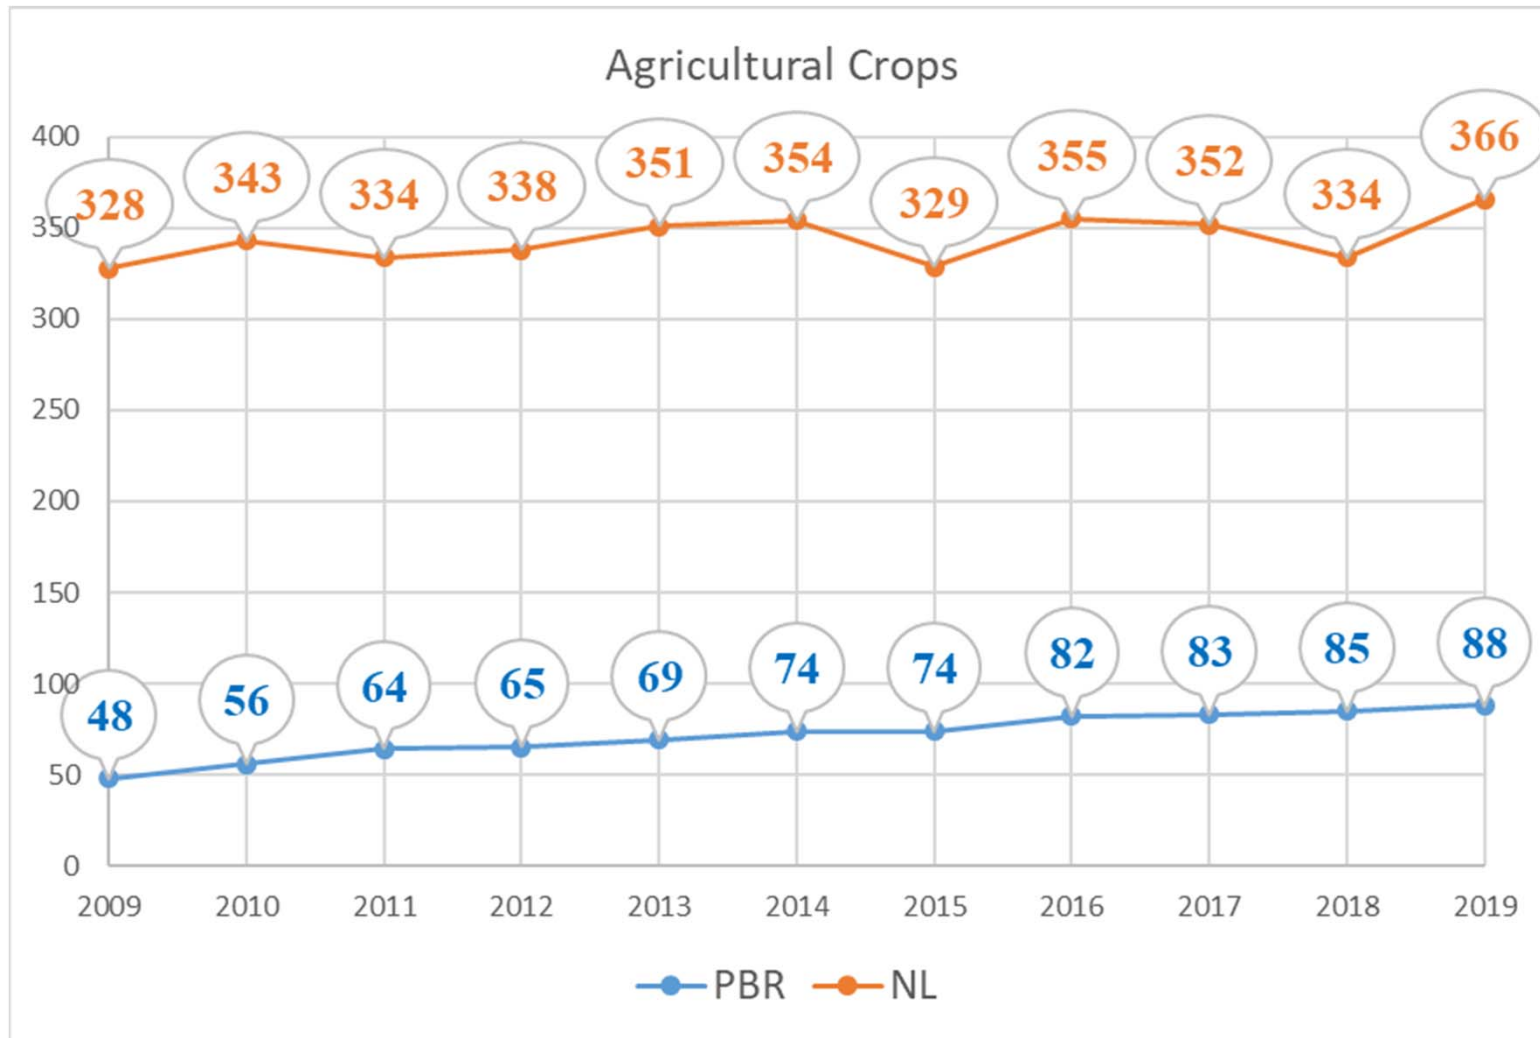

VCU examination

Agricultural Research Centre:

- Viljandi Variety Testing Centre
- Võru Variety Testing Station
- Kuusiku Variety Testing Centre
- Estonian Crop Research Institute
(contract partner)

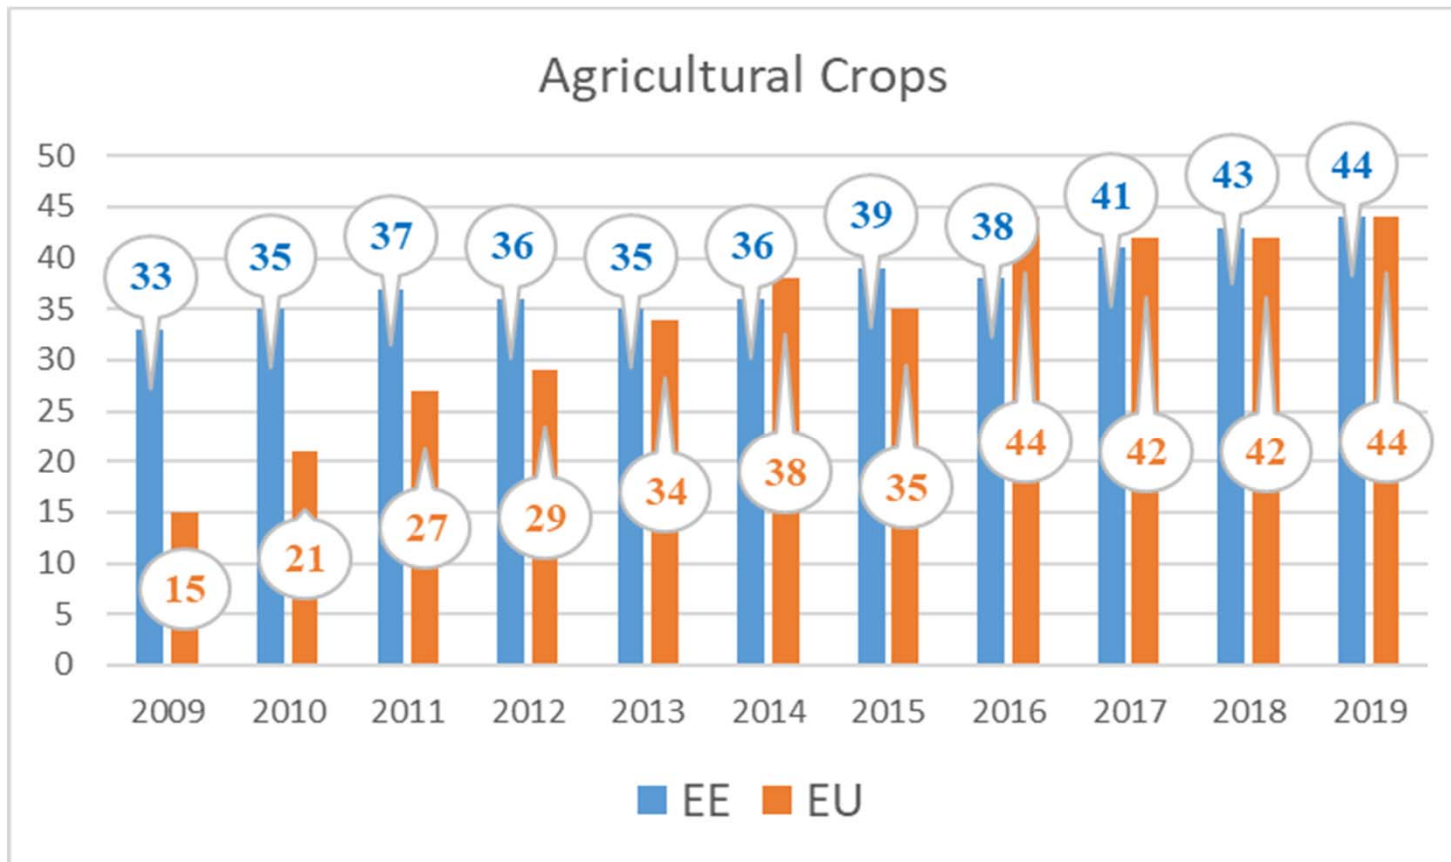

National List and protected plant varieties in 2009-2019

Varieties of EE or EU origin in the National List
