

CPVO

Community Plant Variety Office

DISCLAIMER

The present version of the national guideline has been accepted by the President of the CPVO for its use in technical examinations carried out on behalf of the CPVO or for the take-over of reports serving as a basis for a CPVO decision.

Stachys
Simplified Standard protocol: SSP/ANDO/1.rev

Botanical taxon: Stachys byzantine K. Koch x S. debilis Kunth
 Common Name (when known): Lamb's Ears
 Date of preparation of SSP: 20-01-2015
 Date of revision of SSP: 01-01-2020
 SSP revised by: G. van de Wardt

Sample to be examined: VEGETATIVE
 Number of growing cycles: 1 year

Closing date for applications: 1/12
 Submission date/period: 1/3 - 31/3
 Plant Quantity: 24 young plants
 Able to show all their characteristics in the first year of examination

Special conditions sample: None

Test station address: Naktuinbouw, Sotaweg 22, 2371 AA, Roelofarendsveen
 Name: Team Support Variety Testing Department
 E-mail: teamsupport@rasraad.nl

List of grouping characteristics: NO, (if yes put as annex)
 Minimum number of plants in trial: Vegetative: 20 Seed: not appl.
 Minimum number of plants observed by measuring or counting: Vegetative: 1 Seed: not appl.

Give description of when observations on the flower should take place:
 Not applicable
 Give description of when/where observations on the leaf should take place:
 After approximately 6 months of growth
 Give description of when/where the other observations should take place:
 After approximately 6 months of growth

Test will take place: Outdoor

Uniformity: A population standard of 1% with an acceptance probability of at least 95%. Number of off-types allowed: one off-type allowed in a sample size of 24 plants.

Table of characteristics: PRESENT (see annex)
 (if present, please annex the table of characteristics and explanations)

Literature: PRESENT
 (when present, please annex to this document)

Table of characteristics

Plant: appearance
Plant: height
Plant: width
Petiole: length
Petiole: profile in cross section
Petiole: pubescence
Leaf blade: length
Leaf blade: width
Leaf blade: colour upper side
Leaf blade: colour lower side
Leaf blade: shape
Leaf blade: colour of main vein compared to colour upper side
Leaf: shape of base
Leaf: surface
Leaf: profile in cross section
Leaf: pubescence
Leaf: margin
Leaf: shape of distal half
Leaf: shape of tip
