

Announcement n° 2/98 of the Office in respect of the technical examination of roses

Varieties of roses, for which Community plant variety protection has been applied, are examined on behalf of the Community Plant Variety Office (CPVO) at the following examination offices.

The attention of applicants is drawn to the fact that only the CPVO determines where the candidate variety is examined.

Any arrangements which are made directly with an examination Office, but without consent of the CPVO, may therefore jeopardise later examination results.

Potroses

Bundessortenamt

Prüfstelle Rethmar

Hauptstrasse 1

31319 Sehnde

Germany
