

DISCLAIMER

The present version of the national guideline has been accepted by the President of the CPVO for its use in technical examinations carried out on behalf of the CPVO or for the take-over of reports serving as a basis for a CPVO decision.

Ficus Simplified standard protocol: SSP/VGB/3.rev

Examination office:	Naktuinbouw
Reference of the protocol:	SSP/VGB/3.rev
Date of preparation of the protocol:	01/02/2023
Date of entry into force of the protocol:	01/03/2022
	Ficus americana Aubl. subsp. guianensis (Ham.) C. C. Berg
	Ficus auriculata Lour.
	Ficus benghalensis L.
	Ficus binnendijkii Miq.
	Ficus bussei Warb. ex Mildbr. & Burret
	Ficus cyathistipula Warb.
	Ficus deltoidea Jack
	Ficus elastica Roxb. ex Hornem.
Botanical taxon:	Ficus L.
Journal Control	Ficus lyrata Warb.
	Ficus microcarpa L. f.
	Ficus natalensis Hochst.
	Ficus petiolaris Kunth
	Ficus pumila L.
	Ficus punctata Thunb.
	Ficus religiosa L.
	Ficus sagittata Vahl
	Ficus stricta (Miq.) Miq.
	Ficus umbellata Vahl
	Ficus americana Aubl. subsp. Guianensis
	Roxburgh fig
Common Name (when known):	Ficus benghalensis
	Fig
	Ficus bussei
	Ficus cyathistipula

	Ficus deltoidei	
	Rubber Plant	
	Fig tree	
	Fiddle-leaf fig	
	Ficus macrocarpa	
	Bark-cloth fig	
	Ficus petiolaris	
	Fig pumila	
	Ficus punctata	
	Fig	
	Ficus sagittate	
	Ficus stricta	
	Ficus umbellata	
Way of propagation of the plants to be examined:	Self or cross pollir propagated □ Vegetatively propagated □	
	, , ,	
	1 🗵	
Number of growing cycles:	2 🗆	
	Other □ specify Click or tap here to enter text.	
List of grouping characteristics:	Yes \square if yes put as annex No \boxtimes	
Minimum number of plants in trial:	Vegetative:20	Seed: -
Minimum number of plants observed by measuring or counting:	Vegetative:1	Seed: -
		d take place: growing in the

Uniformity:

- For the assessment of uniformity of vegetatively propagated, self-pollinated seed propagated varieties or F1-hybrids, a population standard of 1% and an acceptance probability of at least 95% should be applied. In the case of a sample size of 20 plants, 1 off-type is allowed
- For the assessment of uniformity for cross-pollinated varieties, the recommendations for cross-pollinated varieties in the General introduction of UPOV should be applied. The variability within the variety should not exceed the variability of comparable varieties already known.

Table of characteristics:	Present ⊠ Not available □
Literature: (when present, please annex to this document)	Present □ Absent ⊠

Table of characteristics Ficus

1. Diameter accountly braining			
1. Plant: growth habit			
2. Plant: length of internodes (at middle third of stem)			
3. Young stem: colour			
4. Stem: colour			
5. Stem: torsion			
6. Stem: pubescence			
7. Stem: colour of pubescence			
8. Petiole: length			
10. Petiole: anthocyanin coloration			
11. Petiole: pubescence			
12. Young leaf blade: number of colours			
13. Young leaf blade: main colour	RHS Colour Chart (indicate reference number)		
14. Leaf blade: length			
15. Leaf blade: width			
16. Leaf blade: shape			
17. Leaf blade: shape of apex			
18. Leaf blade: number of colours			
19. Leaf blade: main colour of the upper side	RHS Colour Chart (indicate reference number)		
20. Leaf blade: secondary colour of upper side			
	RHS Colour Chart (indicate reference number)		
21. Leaf blade: pattern of secondary colour of upper side			
22. Leaf blade: main colour of lower side	RHS Colour Chart (indicate reference number)		
23. Leaf blade: pubescence lower side			
24. Leaf blade: colour of main vein	RHS Colour Chart (indicate reference number)		
25. Leaf blade: glossiness			
26. Leaf blade: shape in cross-section			
27. Leaf blade: curvature of main axis			
28. Leaf blade: undulation of margin			
29. Berry length			
30. Berry: width			
31. Berry: shape			
32. Berry: colour	RHS Colour Chart (indicate reference number)
