BG Специално издание на Официалния Бюлетин на Службата на общността за сортовете растения (ЦПВО) с информация за крайните срокове за заявки и изискванията за предоставяне на растителен материал (Страница 25)

Специалното издание на Официалния бюлетин на Службата на Общността за сортовете растения (S2) има за цел да предостави на заявителите консолидирана версия на крайните срокове за заявки и изискванията за предоставяне на материал от сорта с оглед техническата му проверка.

От октомври 2010 г. S2 ще се публикува в електронен вид на уебсайта на Службата шест пъти в годината. Всяко специално издание ще съдържа консолидирана версия; измененията в предходното издание ще се отбелязват с осветен текст.

На уебсайта на Службата е предоставен инструмент за търсене, чрез който могат да се проследят измененията.

За да са възможни проверки в историята на записите, всяко специално издание на Официалния бюлетин на ЦПВО ще бъде запазено в .pdf формат и ще остане на разположение на уеб потребителите за справка.

В списъците в специалните издания на Официалния бюлетин на ЦПВО са включени най-значителните сортове растения от гледната точка на заявките. Ако имате въпроси относно други сортове растения, обърнете се към ЦПВО на: cpvo@cpvo.europa.eu.

Важни забележки:

— От заявителя се очаква да предостави растителен материал, едва след като получи писмено искане от ЦПВО. Неспазването на горното указание може да изложи на риск цялата процедура.

— Заявителите се приканват настоятелно да не оставят изпращането на заявките или растителния материал за последния момент.

— Заявките могат да се подават по всяко време. ЦПВО предвижда да започне техническата проверка през периода на отглеждане, който следва крайния срок, при условие че преди изтичане на крайния срок е получена валидна заявка.

— В случай че растителният материал бъде предоставен след определената дата за подаване, заявката може да бъде отхвърлена съгласно член 61 от Регламент (ЕО) н° 2100/94 на Съвета от 27 юли 1994 година.

— Ако крайният срок изтича на ден, на който ЦПВО не работи и не може да получава документи, срокът се удължава до първия следващ работен ден, на който ЦПВО може да получава документи и на който се доставя обикновена поща, съгласно член 71 от Правилат а за прилагане на Регламент 874/2009 на Европейската комисия от 17/09/2009 година.

— Ако крайният срок изтича на ден, в който службата не работи и не може да получава растителен материал, срокът се удължава до първия следващ работен ден, на който службата за проверка може да получава растителен материал, съгласно член 71 от Правилат а за прилагане на Регламент 874/2009 на Европейската комисия от 17/09/2009 година.

— Всички фитосанитарни изисквания се съобщават на заявителя заедно с искането за предоставяне на растителен материал на съответната служба за проверка.

— Предоставеният растителен материал трябва да бъде видимо здрав, да изглежда свеж и да не е засегнат от никакви значителни вредители или болести.

DA Særudgave af EF-Sortsmyndighedens Officielle Tidende indeholdende tidsfrister for ansøgninger og betingelser for indgivelse af plantemateriale (Side 25)

Formålet med særudgaven af Sortsmyndighedens Officielle Tidende (S2) er, i en konsolideret version, at give ansøgerne oplysninger om de tidsfrister og betingelser for indgivelse, der finder anvendelse, når der foretages teknisk afprøvning af plantemateriale.

Fra oktober 2010 offentliggøres oplysningerne digitalt på Sortsmyndighedens websted seks gange årligt. Alle S2-udgaver offentliggøres i en konsolideret version, og eventuelle ændringer i forhold til den tidligere offentliggjorte S2-version vil blive fremhævet.

På Sortsmyndighedens websted findes der et søgeværktøj, som kan identificere disse ændringer.

For at gøre det muligt at søge i arkiverne, gemmes alle S2-publikationer som pdf-dokument og forbliver tilgængelige for webbrugerne.

Listen i S2-udgaven angiver de hyppigste sorter, når det gælder ansøgninger. I tilfælde af spørgsmål vedrørende andre sorter kan der rettes henvendelse til Sortsmyndigheden på adressen cpvo@cpvo.europa.eu.

- 1: Undertype
- 2: Afprøvningsgebyrgruppe
- 3: Forventet antal vækstperioder
- 4: Land
- 5: Prøvningsmyndighed
- 6: Ansøgningsfrist
- 7: Påbegyndelse af indgivelsesperiode
- 8: Afslutning af indgivelsesperiode
- 9: Frø/plantemængde
- 10: Frø/plantekvalitet

Vigtigt:

— Ansøgeren skal kun indgive materialet efter skriftlig anmodning fra Sortsmyndigheden. Tilsidesættelse af ovenstående anvisninger kan bringe hele proceduren i fare.

— Det tilrådes kraftigt, at ansøgeren ikke venter til sidste øjeblik med at sende ansøgningen eller plantematerialet.

— Ansøgninger kan indgives på et hvilket som helst tidspunkt i løbet af året. Sortsmyndigheden har til hensigt at påbegynde den tekniske afprøvning i dyrkningsperioden efter ansøgningsfristens udløb, hvis der er modtaget en gyldig ansøgning inden fristens udløb.

— Hvis plantematerialet indsendes efter den fastsatte indsendelsesfrist, kan ansøgningen afvises i henhold til artikel 61 i Rådets forordning (EF) nr. 2100/94 af 27. juli 1994.

— Udløber en frist på en dag, hvor Sortsmyndigheden har lukket for modtagelse af dokumenter, forlænges fristen til den nærmeste hverdag dag, hvor Sortsmyndigheden har åbent for modtagelse af dokumenter, og hvor almindelige postforsendelser udbringes, i henhold til artikel 71 i Kommissionens forordning nr. 874/2009 af 17. september 2009 om gennemførelsesbestemmelser.

— Udløber en frist på en dag, hvor prøvningsmyndigheden har lukket for modtagelse af plantematerialer, forlænges fristen til den nærmeste hverdag dag, hvor prøvningsmyndigheden har åbent for modtagelse af plantematerialer, i henhold til artikel 71 i Kommissionens forordning nr. 874/2009 af 17. september 2009 om gennemførelsesbestemmelser.

— Ethvert fyto sanitært krav vil blive meddelt ansøgeren sammen med anmodningen om indgivelse af plantemateriale til den pågældende prøvningsmyndighed.

— Plantematerialet skal være sundt og frisk uden spor af skadedyr og sygdomme.

HU A CPVO Hivatalos Közlönyének speciális kiadványa-tájékoztató a kérelmek beadásának határidejéről és a növényi minták benyújtásához kapcsolódó követelményekről (Oldal 25)

Az S2 Gazette célja az, hogy a kérelmezők rendelkezésére bocsássa a kérelmek beadására vonatkozó egységesített határidőket, valamint a növény minta beküldésére vonatkozó előírásokat szakmai szempontok szerint.

2010 októberétől a kiadvány digitálisan kerül közzétételre a Hivatal weboldalán évente hat alkalommal. Minden S2 kiadvány egységesített változatban kerül közzétételre, az S2 kiadvány bármely, előzőleg közzétett változatához képest megjelenő módosítás kiemelve fog megjelenni.

Egy kereső segítségével ezek a módosítások azonosíthatók a Hivatal weboldalán.

Annak érdekében, hogy a nyilvántartások előzményeit ellenőrizni lehessen, minden S2 kiadványt el fognak menteni pdf. dokumentumként, amely betekintés céljából a webes felhasználók rendelkezésére fog állni.

Az S2 Gazette kiadványban található lista a kérelmek szempontjából leglényegesebb fajtákat sorolja fel. Amennyiben egyéb fajtákkal kapcsolatban kérdése merülne fel, kérjük, keresse meg a CPVO-t a : cpvo@cpvo.europa.eu címen.

Fontos megjegyzés:

— A kérelmet benyújtónak csak akkor kell elküldenie a szaporítóanyag mintát, miután a CPVO-tól írásos nyilatkozatot átvette. Az említett utasítás be nem tartása az egész eljárást veszélyezteti.

— A kérelmezőknek nem tanácsos a kérelmek vagy a növényi szaporítóanyag minták benyújtásnak elküldését az utolsó pillanatra halasztaniuk.

— Kérelmet bármikor be lehet nyújtani. A CPVO a technikai vizsgálat megkezdését a benyújtási határidőt követő termesztési időszakra irányozza elő, ha az érvényes kérelem a benyújtási határidő lejártá előtt beérkezett.

— A beküldési határidő lejártát követően beküldött növényi szaporítóanyag minták esetében a kérelmet az 1994. július 27-i, 2100/94/EK tanácsi rendelet 61. cikke alapján vissza lehet utasítani.

— Amennyiben egy határidő olyan napon jár le, amikor a CPVO nem fogad dokumentumokat, a határidőt -a 17/09/2009, 874/2009/EK bizottsági rendelet végrehajtási szabályainak 71. cikke szerint az első olyan napig hosszabbítják meg, amelyen a CPVO fogad dokumentumokat, és amelyen a szokványos postai küldemények érkeznek.

— Amennyiben egy határidő olyan napon jár le, amikor a CPVO nem vesz át szaporítóanyag mintákat, a határidőt -a 17/09/2009, 874/2009/EK bizottsági rendelet végrehajtási szabályainak 71. cikke szerint - az első olyan napig hosszabbítják meg, amelyen a hivatal átvesz növényi mintákat.

— A kérelmet benyújtó tájékoztatást kap a növény-egészségügyi követelményekről, amikor megkapja a növényi minta illetékes vizsgáló hivatalhoz való benyújtásáról szóló nyilatkozatot.

— A benyújtott növénymintának láthatóan egészségesnek, életerőnek kell lennie, illetve nem szenvedhet jelentős kártevő vagy kórokozó fertőzéstől.

SV Specialutgåva av den officiella tidskriften för gemenskapens växtsortsmyndighet innehållande information om tidsfrister för ansökningar och villkor för ingivande av växtmaterial (Sida 25)

Syftet med specialutgåvan (S2) av den officiella tidskriften är att i en konsoliderad version informera de sökande om tidsfrister för ansökningar och krav på inlämning av växtmaterial för den tekniska provningen.

Från och med oktober 2010 kommer specialutgåvan att offentliggöras digitalt sex gånger per år på myndighetens webbplats. Varje specialutgåva kommer att offentliggöras i en konsoliderad version. Varje ändring jämfört med tidigare publicerade versioner av specialutgåvan kommer att vara markerade.

Ett sökverktyg för att identifiera dessa ändringar finns på myndighetens webbplats.

För att tillåta kontroll av tidigare publicerade dokument så kommer alla specialutgåvor sparas som pdf-dokument och dessa kommer att finnas tillgängliga för konsultation för webbanvändare.

Listan i specialutgåvan visar de viktigaste arterna när det gäller ansökningar. Kontakta CPVO på cpvo@cpvo.europa.eu om det finns frågor om andra arter.

- 1: Undergrupp
- 2: Avgiftsgrupp för provningen
- 3: Antal planerade växtcykler
- 4: Land
- 5: Provningsmyndighet

- 10: Säd-/plantkvalitet

Observera:

— Den sökande förväntas lämna in växtmaterialet endast efter det att denne mottagit en skriftlig begäran från växtsortsmyndigheten. Underlåtenhet att rätta sig efter instruktionerna ovan kan äventyra hela förfarandet.

— De sökande uppmanas att inte vänta till sista stund med att lämna ansökningar eller växtmaterial.

— Ansökningar kan lämnas in när som helst. CPVO räknar med att påbörja den tekniska provningen under växtperioden efter sista ansökningsdatum om en giltig ansökan har inkommit senast detta datum.

— Om materialet lämnas in efter fastställd tidsfrist för inlämnande kan ansökan avslås enligt artikel 61 i rådets förordning (EG) nr 2100/94 av den 27 juli 1994.

— Om en tidsfrist löper ut på en dag då växtsortsmyndigheten inte är öppen för mottagande av handlingar ska tidsfristen förlängas till första dagen därefter då växtsortsmyndigheten är öppen för mottagande av handlingar och då vanlig post delas ut, i enlighet med artikel 71 i genomförandebestämmelserna, Europeiska kommissionens förordning nr 874/2009 av den 17/09/2009.

— Om en tidsfrist löper ut på en dag då provningsmyndigheten inte är öppen för mottagande av växtmaterial, ska tidsfristen förlängas till första dagen därefter då provningsmyndigheten är öppen för mottagande av växtmaterial, i enlighet med artikel 71 i genomförandebestämmelserna, Europeiska kommissionens förordning nr 874/2009 av den 17/09/2009.

— Eventuella fytosanitära villkor kommer att meddelas den sökande tillsammans med begäran att lämna in växtmaterial till berörd provningsmyndighet.

— Det inlämnade växtmaterialet ska vara synbarligen friskt och inte sakna livskraft eller vara drabbat av några skadedjur eller någon sjukdom.
