

# CPVO Variety Finder database 2020

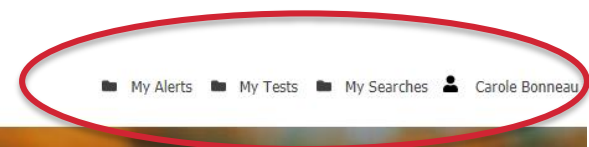

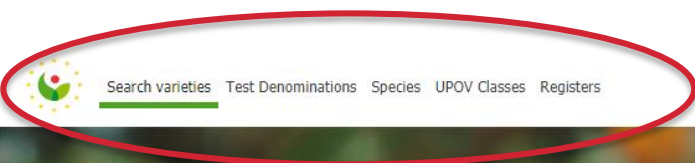

## Objectives:

- More modern web application (obsolete technology to be replaced)
- Improved usability and user friendliness
- Complete redesign
- Current functionalities improved but additional features added

(Follow up of 15 years of collections of remarks)

# Home page

Article 63.3(a) states that « There is an impediment for the designation of a variety denomination where its use in the Community is precluded by the prior right of a denomination 'X' has already been deposited by the company Y as a trademark in Z for the whole of class 31 including living plants.

63.3.a.1 Prior rights > Identical/similar to a Trade Mark (class31/entire classe 31/valid)

## Messages

24/11/2020 09:20 - Bénédicte Legrand (CPVO)

Could you please clarify, why you do not agree? Thank you.

23/11/2020 17:18 - Eric Buléon

Hello. I don't agree with the prior right.

23/11/2020 17:11 - Eric Buléon

Message: I would like an advice please (message 2)

23/11/2020 17:10 - Eric Buléon

Message: I would like an advice please. thanks

- **Access** the full history of messages exchanged via Variety Finder

# Portal for contributions

- Contributions will be received through this portal
- **Limit exchange** of huge files by e-mail – more efficient process
- Portal could be developped in the future

The screenshot displays the 'Contributors Portal' interface. At the top, there is a navigation bar with links: 'Search varieties', 'Test Denominations', 'Species', 'UPOV Classes', and 'Registers'. On the right side of the navigation bar, there are links for 'My Alerts', 'My Tests', 'My Searches', and a user profile for 'Carole Bonneau' with a dropdown arrow. The main heading is 'Contributors Portal' with the subtitle 'Upload new contributions'. Below this, there is a form with the following fields: 'Country' with a 'Select' dropdown menu, 'Contribution File' with a 'Browse' button, and a 'Comment' text area. At the bottom right of the form, there is a 'Clear fields' link and a green 'Create' button. The background of the page features a close-up image of green olives.

# API

- New API available (webservices)
- Machine to machine communication
- Possible to **make use of all functionalities** of the Variety Finder directly **via internal applications** :
  - Search the Variety Finder and update national databases (for the management of reference collections)
  - Launch tests of denominations
  - Create alerts, retrieve information on species etc...
- To make use of the service -> **contact CPVO to receive documentation**
